

CEBIT 2010

Slowly the long and hard winter passes and all of us eagerly awaiting springtime to arrive.

In order to shorten your waiting time, you are heartily and warmly invited to visit CeBIT 2010 in Hannover (2nd - 6th of March 2010)!

As in the previous years, Compel Electronics GmbH supports our long-time partner MP Systems showing its product and service portfolio in Hall 12 / A02.

We are also delighted to show first time our new Fiber Optic Interconnection Box "FTTH Home" on the booth of MP Systems.

This new box with a unique design has a capacity of up to 4 fibers (with LC Duplex Adapters) and can be surface mounted in any standard in-wall socket.

But that's not all, further more MP System will present its new products which will greatly simplify your installation sites - the new O-Box.

Please visit the booth and assure yourself about the great advantages of our new products. If you need a ticket and/or you would like to make an appointment with our sales staff, please don't hesitate to contact our sales department .
